

**MITCON Consultancy & Engineering Services Ltd. appointed by  
Export-Import Bank of India for Development of Project Formulation  
Reports for Solar Power Projects in Democratic Republic of Congo**

Government of Democratic Republic of Congo (DRC) has identified three potential sites namely Lusambo, Karawa and Mbandaka for setting up of Solar Photovoltaic Power Plants and associated Public Electricity Networks. Recently, MITCON officials visited these sites and had interactions with Hon. Minister of Energy & Resources Hydraulics, DRC and Ambassador to India about the development of solar power projects in the country.
