

MITCON IMPACT ASSET MANAGEMENT PRIVATE LIMITED

Standalone Financial Statements
for the year ended 31 March, 2026

Independent Auditor's Report

To the Members of

MITCON Impact Asset Management Private Limited

Report on the Audit of Financials Statements

Opinion

We have audited the accompanying Financials statements of **MITCON Impact Asset Management Private Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Cash Flows and Statement of Changes in Equity for the year then ended, and notes to the Financials statements, including a summary of material accounting policies information, other accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financials statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2026, its loss, total comprehensive income and its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's responsibilities for the audit of the Financials statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financials statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Financials statements.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

Managements and Board of Directors' Responsibilities for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Financials statements that give a true and fair view of the financial position, financial performance including other comprehensive income and cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate

accounting records in accordance with the provision of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financials statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financials statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financials statements:

Our objectives are to obtain reasonable assurance about whether the Financials statements as a whole are free from material misstatement, whether due to fraud or error, and to issue

an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financials statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatements of the Financials statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of the accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and the content of the Financials statements, including the disclosures, and whether the Financials statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2) As required by section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Financials Statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of written representations received from the directors as on 31st March, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2026, from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of internal financial controls over financial reporting of the Company, and the operating effectiveness of such controls, refer to our separate report in Annexure "A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigation which impacts the financial position of the Financials statements of the Company.
 - ii. The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

- iv. a. The Management has represented that, to the best of its knowledge and belief, as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- b. The Management has represented, that, to the best of its knowledge and belief, as disclosed in the notes to accounts, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- c. Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under subclause (i) and (ii) of Rule 11(e), as provided under (h) (iv) and (v) above, contain any material misstatement.
- v. The Company has not declared or paid any dividend during the year.
- (i) The reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is applicable
- a. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software.
- b. Further, the audit trail (edit log) facility was enabled and operated throughout the year for the respective accounting software, we did not come across any instance of the audit trail feature being tampered with.

Annexure "A" to the Independent Auditors' Report

The Annexure referred to in paragraph (2) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MITCON Impact Asset Management Private Limited** ("the Company") as of 31st March, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2026, based on the criteria for internal financial controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India

Annexure "B" to the Independent Auditors' Report

The Annexure referred to in paragraph (1) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) In respect of Property, Plant and Equipment of the company, in our opinion and according to the information and explanations given to us, the Company does not have any Property, Plant and Equipment hence provisions of clause (i)(a) to (d) of the paragraph 3 of the said Order is not applicable to the company during the year.
- (b) In our opinion and according to the information and explanations given to us, no proceedings have been initiated or are pending against the Company as at 31st March, 2026 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) (a) The nature of business of the Company does not require it to have any inventory. Hence, the requirement of clause (ii)(a) of paragraph 3 of the said Order is not applicable to the Company.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned any working capital limits in excess of five crore rupees in aggregate from banks and financial institutions on the basis of security of current assets at any point of time of the year. Accordingly, clause (ii)(b) of the paragraph 3 of the said Order is not applicable to the Company.
- (iii) In our opinion and according to the information and explanations given to us, the Company has not provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence sub-clauses (a) to (f) under clause (iii) of the paragraph 3 of the said the order are not applicable.
- (iv) In our opinion and according to information and explanations given to us, the Company has complied with provisions of Section 185 and 186 of the Act in respect of loans, investments, guarantees and securities, as applicable.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposit from the public in accordance with the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under. Accordingly, provisions of clause (v) of the paragraph 3 of the said Order are not applicable to the Company.
- (vi) According to the information and explanations given to us, the Central Government has not specified maintenance of cost records under Sec.148 (1) of the Companies Act, 2013 hence the provisions of clause (vi) of the paragraph 3 of the said Order are not applicable to the Company.
- (vii) According to the information and explanations given to us and the records of the

Company examined by us, in respect of statutory dues:

- a) The Company has been generally regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, Customs Duty, Goods and Service Tax, Cess and other material statutory dues applicable to it to the appropriate authorities.
 - b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Sales-tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Goods and Service Tax, Cess and other material statutory dues in arrears as at 31st March, 2026 for a period of more than six months from the date they became payable.
 - c) There were no dues of Income Tax, Sales Tax, Service Tax, Customs Duty and Goods and Service Tax which have not been deposited as at 31st March, 2026 on account of any disputes.
- (viii) According to the records of the Company examined by us and as per the information and explanations given to us, there were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) (a) According to the records of the Company examined by us and as per the information and explanations given to us, the Company has not defaulted during the year in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
- (b) The Company has not been declared willful defaulter by any bank or financial institution or other lender.
- (c) The Company has not taken any term loan from the bank during the year.
- (d) On an overall examination of the Financial Statements of the Company, funds raised on short-term basis have, prima facie, not been utilised during the year for long-term purposes by the Company.
- (e) The Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or associates during the year and hence, reporting under clause (ix)(e) of the Order is not applicable.
- (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries or associate companies.
- (x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.
- (b) The Company has not made any preferential allotment or private placement of shares or convertible debenture (fully or partly or optionally) during the year and hence reporting under clause (x)(b) of the Order is not applicable to Company.
- (xi) (a) To the best of our knowledge and according to the information and

explanations

given to us and based on audit procedures performed, no fraud by the Company and no fraud on the Company by its officers or employees has been noticed or reported during the year nor we have been reported of such case by the management.

- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) To the best of our knowledge and according to the information and explanations given to us, the whistle blower complaints were not applicable to the company during the year. Hence, reporting under clause (xi)(c) of the para 3 of the said order is not applicable to the company.
- (xii) According to the information and explanations given to us, the Company is not a Nidhi Company as prescribed under section 406 of the Act. Accordingly, reporting under clause (xii) of the Order is not applicable to the Company.
- (xiii) To the best of our knowledge and according to the information and explanations given to us, all transactions with the related parties are in compliance with section 177 and 188 of the Companies Act, 2013 where applicable and the details have been disclosed in the financial statements as required by the applicable Indian Accounting Standards.
- (xiv) The size and nature of business of the Company does not require it to have any internal audit system. Hence, the requirement of clause (xiv)(a) and (b) of paragraph 3 of the said Order is not applicable to the Company.
- (xv) To the best of our knowledge and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with him and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company during the year.
- (xvi) (a) According to the information and explanations given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable to the Company.
(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.
(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.
(d) According to the information and explanations provided to us during the course of audit, the Company does not have any CIC. Accordingly, the requirements of clause 3(xvi)(d) are not applicable.

- (xvii) The Company has incurred cash loss of 0.27 lakhs in the current financial year.
- (xviii) There has been no resignation of the statutory auditors during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, the auditor's knowledge of the Board of Directors and management plans, the auditor is of the opinion that no material uncertainty exists as on the date of the audit report that company is capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) To the best of our knowledge and according to the information and explanations given to us, the provisions of Section 135 of the Act are not applicable to the company. Accordingly, these clauses of the paragraph 3 of the said Order are not applicable to the company.

MITCON IMPACT ASSET MANAGEMENT PRIVATE LIMITED
CIN No. U65990PN2020PTC194448
Notes to the financial statements for the year ended 31 March, 2026
(All amounts in ₹ lakhs, unless otherwise stated)

1 Company overview

MITCON Impact Asset Management Private Limited, incorporated on 28th September, 2020, is engaged into the business to act as consultant, investment advisors, investment managers, asset managers, sponsors, trustee and adminstrotors to various alternative investment funds etc. The Company is a private limited company and is incorporated under the provisions of Companies Act applicable in India. The Company's Registered Office and Works are located at 1st Floor, Kubera Chambers, Shivajinagar, Pune 411005
C.No. U65990PN2020PTC194448

Company details

The financial statements were authorised for issue in accordance with the resolution of the Board of Directors of the Company on 13th May, 2026

2 Summary of Significant accounting Policies

2.1 Basis of accounting and preparation

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) Companies (Indian Accounting Standards) Rules, 2015 as amended thereafter ("Companies (Accounting Standards) Rules, 2021 "the Rules").

For all periods up to and including the year ended 31 March, 2021, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These financial statements for the year ended 31 March, 2022 are the first the Company has prepared in accordance with Ind AS. Refer note 21 for information on how the Company adopted Ind AS.

The financial statements have been prepared on a historical cost basis

The financial statements are presented in INR in lakhs and all values are rounded to the nearest thousand, except when otherwise indicated.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian Accounting Standards (IND AS) requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, the disclosure of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the year. Application of accounting estimates involving complex and subjective judgements and the use of assumptions in these financial statements have been disclosed in note 18. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to financial statements.

2.3 Summary of Material accounting policies

a) Revenue recognition

Revenue is recognised when there is reasonable certainty of its ultimate realisation /collection.

Investment Management Fees

Investment management fees (net of GST) is recognised on an accrual basis in accordance with the Investment Management Agreement and SEBI (Alternative Investment Fund) Regulations, 2012, as amended from time to time.

Other income

Other income comprises of interest income, rental income, fair value gain on mutual funds

Interest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

Rental Income

Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and is included in other income in the statement of profit or loss.

Dividend Income

Revenue is recognised when the Company's right to receive the payment is established. which is generally when shareholders approve the dividend.

New Fund Offer (NFO) Expenses

Expenses relating to NFO are charged to the statement of profit and loss account of respective scheme in the year in which these expenses are incurred which is in compliance with SEBI (Alternate Investment Funds) Regulations, 2012, as amended from time to time.

Scheme Expenses

Expenses incurred in relation to advertisement, brokerage, custodian etc. for and on behalf of the schemes of the Fund to be charged to the statement of profit and loss of the company unless considered recoverable from the schemes of the Fund in accordance with the provisions of SEBI (Alternate Investments Fund) Regulations, 2012.

MITCON IMPACT ASSET MANAGEMENT PRIVATE LIMITED
CIN No. U65990PN2020PTC194448
Notes to the financial statements for the year ended 31 March, 2026
(All amounts in ₹ lakhs, unless otherwise stated)

b) Property, plant and equipment ('PPE')

The company has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the previous GAAP financial statements as at the date of transition to Ind AS; measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments in accordance with the relevant Ind AS, since there is no change in functional currency.

Property, plant and equipment are carried at the cost less accumulated depreciation and impairment losses (if any). The cost of fixed assets comprises its purchase price and other costs attributable to bringing such assets to its working condition for its intended use, including installation cost of employees capitalised.

The entire excess of sale proceeds over the net book value of fixed assets is credited to the statement of profit and loss. Expenditure on re-conditioning, re-sitting and re-layout of machinery and equipment which do not increase the future benefits from the existing assets beyond the previously assessed standard of performance based on technical assessment, is not capitalized.

The cost of fixed assets not ready for their intended use before such date, are disclosed as capital work-in-progress. Indirect expenses on administration and supervision are charged to revenue.

Depreciation/amortisation

Depreciation on fixed assets has been provided at the rates prescribed in Schedule II of Companies Act, 2013 on following basis:

- i) Tangible fixed assets are depreciated on Straight line method with 1% salvage over the useful lives in accordance with Schedule II of Companies Act, 2013.

Estimated useful lives of assets are as follows:

Asset Type	"Estimated useful life (in years)
Plant and Machinery	15 years
Furniture and Fixtures	10 years
Vehicles	
Vehicles- Scooters and other mopeds	10 years
Vehicles - Motor vehicle other than Scooters & other mopeds.	08 years
Office Equipments	05 years
Computers	03 years
Servers and networks	06 years
Electrical Installation	10 years
Intangible Assets (Computer Software)	03 years

c) Intangible assets

The Company has elected to continue with the carrying value for all of its intangible assets as recognised in the previous GAAP financial statements as at the date of transition to Ind AS, measured as per the previous Indian GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments in accordance with the relevant Ind AS, since there is no change in functional currency.

Measurement at recognition: Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred. The useful lives of intangible assets are assessed as either finite or indefinite.

Amortisation : Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

The cost of software internally generated /acquired for internal use which is not an integral part of the related hardware, is recognized as an intangible asset. Intangible assets are amortized over a period of not exceeding five years, on straight line method. Amortization commences when the assets is available for use.

d) Impairment of non financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations are recognised in the statement of profit and loss

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

e) Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- >Debt instruments at amortised cost
- >Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- >Equity instruments measured at fair value through other comprehensive income (FVTOCI)
- >Debt instruments at fair value through Other Comprehensive Income (FVOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- >The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- >Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by- instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

"The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement? and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- 1) Financial assets that are debt instruments, and are measured at amortised cost e.g. deposits, loans, trade receivables, bank balance and other financial assets.
- 2) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115;

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime Expected Credit Losses (ECLs) at each reporting date, right from its initial recognition

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, twelve-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on twelve-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The twelve-month ECL is a portion of the lifetime ECL which results from default events that are possible within twelve months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the statement of profit and loss. The balance sheet presentation for ECL on financial assets measured at amortised cost is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

MITCON IMPACT ASSET MANAGEMENT PRIVATE LIMITED
CIN No. U65990PN2020PTC194448
Notes to the financial statements for the year ended 31 March, 2026
(All amounts in ₹ lakhs, unless otherwise stated)

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss; loans and borrowings; payables as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR (effective interest rate) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Reclassification of financial assets

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

D) Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

"Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

>When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

>In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Sales/ value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of sales/ value added taxes paid, except:

When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

>When receivables and payables are stated with the amount of tax included.

>The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet

MITCON IMPACT ASSET MANAGEMENT PRIVATE LIMITED

CIN No. U65990PN2020PTC194448

Notes to the financial statements for the year ended 31 March, 2026

(All amounts in ₹ lakhs, unless otherwise stated)

g) Foreign currency transactions

The Company's financial statements are presented in INR which is the Company's presentation currency and functional currency of the company

1 Initial recognition

Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

2 Conversion

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.(i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss, respectively).

h) Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

>In the principal market for the asset or liability, or

>In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy,described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above. This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes

Disclosures for valuation methods, significant estimates and assumptions (note 27)

MITCON IMPACT ASSET MANAGEMENT PRIVATE LIMITED

CIN No. U65990PN2020PTC194448

Notes to the financial statements for the year ended 31 March, 2026

(All amounts in ₹ lakhs, unless otherwise stated)

i) Retirement and other employee benefits

Retirement benefit in the form of provident fund and other funds is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit gratuity plan, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- 1 The date of the plan amendment or curtailment, and
- 2 The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- 1 Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- 2 Net interest expense or income

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as a short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as a long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method as at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Short-term employee benefits including salaries, bonuses and commission payable within twelve months after the end of the period in which the employees render the related services and non monetary benefits (such as medical care) for current employees are estimated and measured on an undiscounted basis

j) Provision and contingencies

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

k) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Contracts may contain both lease and non-lease components. The Company allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments

- >Fixed payments (including in-substance fixed payments), less any lease incentives receivable
- >Variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- >Amounts expected to be payable by the Company under residual value guarantees
- >The exercise price of a purchase option if the Company is reasonably certain to exercise that option, and payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third party financing and makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification.

"Right-of-use assets are measured at cost comprising the following:

- a) the amount of the initial measurement of lease liability
- b) any lease payments made at or before the commencement date less any lease incentives received
- c) any initial direct costs, and
- d) restoration costs."

The right-of-use asset is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

l) Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 Leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning from 1st April, 2020 and applied the standard to all lease contracts existing on 1st April, 2019 using the modified retrospective method. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the ROU asset the same value at which the lease liability is recognized.

The amendment is related to sale and leaseback transactions, and it is effective April 1, 2024. The amendment requires the seller not to recognise any amount of gain or loss that related to right of use retained by the seller-lessee while determining lease payments or revised lease payments. The amendment must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116. The Company has evaluated the amendment and there is no impact on its financial statements

m) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

MITCON IMPACT ASSET MANAGEMENT PRIVATE LIMITED

CIN No. U65990PN2020PTC194448

Notes to the financial statements for the year ended 31 March, 2026

(All amounts in ₹ lakhs, unless otherwise stated)

n) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the financial statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Company's cash management.

o) Earnings per share ('EPS')

Basic earnings per share is calculated by dividing the net profit or loss attributable to equity holder of the company (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the company and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

p) Investment Property

The company has elected to continue with the carrying value for all of its Investment property as recognised in the previous GAAP financial statements as at the date of transition to Ind AS; measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments in accordance with the relevant Ind AS, since there is no change in functional currency.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

The company depreciates building component of investment property over 30 years from the date of original purchase.

The company, based on technical assessment made by technical expert and management estimate, depreciates the building over estimated useful lives as prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Though the company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer in conformity with the requirements of the Code of Professional Ethics and International Uniform Standards of Professional Appraisal Practice of the Appraisal Standards Board of Appraisal Foundation.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

q) Cash flow statement

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular operating, investing and financing activities of the Company are segregated. Cash and cash equivalents in the cash flow statement comprise cash in hand and balance in bank in current accounts, deposit accounts.

r) Current versus non-current classification

The Company presents its assets and liabilities in the Balance Sheet based on current / non- current classification. An asset is treated as current when it is:

- a) expected to be realised or intended to be sold or consumed in normal operating cycle;
- b) held primarily for the purpose of trading;
- c) expected to be realised within twelve months after the reporting period; or
- d) cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current. A liability is current when:

- a) it is expected to be settled in normal operating cycle;
- b) it is held primarily for the purpose of trading;
- c) it is due to be settled within twelve months after the reporting period; or
- d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle."

s) Cash dividend

The Company recognises a liability to make cash or non-cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity

27 Capital management

The capital management objective of the Company is to (a) maximise shareholder value and provide benefits to other stakeholders and (b) maintain an optimal capital structure to reduce the cost of capital. For the purposes of the Company's capital management, capital includes issued equity share capital, share premium and all other equity.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Company monitors capital using debt-equity ratio, which is total debt less liquid investments and bank deposits divided by total equity.

The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by senior management and the Audit and Risk Management Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies and ensuring compliance with market risk limits and policies.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized below.

MITCON IMPACT ASSET MANAGEMENT PRIVATE LIMITED
CIN No.U65990PN2020PTC194448
Notes to the financial statements for the Year ended 31st March 2026
(All amounts in ₹ Lakhs, unless otherwise stated)

a. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value

i. Foreign exchange rate:

no risk is existing since no such transactions.

ii. Interest rate risk:

The carrying amount of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as

Company's borrowing to interest rate changes

Net exposure	As At 31st March 2026	As At 31st March 2025
Floating rate borrowings	-	-

iii. Other price risk:

no risk existing since no such transactions.

b. Credit Risk:

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing/investing activities, including deposits with banks, mutual fund investments, foreign exchange transactions and financial guarantees. The Company has no Material concentration of credit risk with any counterparty.

Trade receivables

Majority of the Company's transactions are earned in cash or cash equivalents. The Trade Receivables comprise mainly of receivables from Corporate customers, Public Sector Undertakings, State/Central Governments. The Companies are required to maintain minimum reserve levels and the Corporate Customers are enterprises with high credit ratings. Accordingly, the Company's exposure to credit risk in relation to trade receivables is considered low. Before accepting any new credit customer, the Company uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed annually. The outstanding with the debtors is reviewed periodically.

As per policy receivables are classified into two buckets based on the overdue period of more than one year & less than one year. Total Balance outstanding for more than one year is Rs.xx lakhs and provision taken against same is ₹ xx. Company expects to recover the differential amount as per their communication with customers.

Movement of provision for doubtful debts:

Particulars	As At 31st March 2026	As At 31st March 2025
Opening provision	-	-
Add: Provided during the year (net of reversal)	-	-
Less: Utilised during the year	-	-
Closing Provision	-	-

Investments, Derivative Instruments, Cash and Cash Equivalents and Bank Deposit

Credit Risk on cash and cash equivalents, deposits with the banks/financial institutions is generally low as the said deposits have been made with the

iii. Liquidity risk management:

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents. The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date based on contractual undiscounted
